**About the Global Interdependence Center:** The GIC brings together a network of international experts in policymaking, central banking, industry, and academia to explore issues and policies concerning global interdependence that impacts world economies and quality of life. We provide a neutral, nonpartisan forum to expand awareness, advance shared interests, and promote social stewardship. Our College of Central Bankers provides a distinguished forum for former leaders of monetary policymaking organizations to share their insights and thought leadership on critical issues facing central banking and global monetary policy. For more information, visit GIC's website at [www.interdependence.org](http://www.interdependence.org).
